IN COLLABORATION WITH FHU EVOCAN

28 JUNE 2018
NEW FACULTY
OF MEDICINE
MONTPELLIER

8h45 **Welcome and opening remarks**
Marc Ychou, Director of SIRIC Montpellier Cancer,
General Director of Montpellier Cancer Institute

SESSION 1 : Colorectal Cancer: from the improvement of current treatments toward therapeutic innovation

Chairs: Antoine Adenis, Philippe Jay

9h00 **Research Program Overview** - Antoine Adenis (ICM, Montpellier) & Philippe Jay (IGF, Montpellier)

9h15 **The role of cyclin A2 in colon homeostasis and colorectal cancer** - Bénédicte Lemmers (IGMM, Montpellier)

9h45 **Peritoneal carcinomatosis of colorectal origin: New radiologic and surgical technologies**
- Olivia Sgarbura & Stéphanie Nougaret (ICM, Montpellier)

10h15 **Analysis of participation in colorectal cancer screening : contributions of health and social psychology**
- Alice Le Bonniec (ICM, Montpellier)

10h45 **MOTRIAL : the first search engine for non-pharmacological intervention trials**
- Grégory Ninot (ICM & Université de Montpellier)

11h **Coffee-break**

SESSION 2 : Optimizing delivery of internal and external radiation therapy

Chairs: David Azria, Muriel Brengues

11h30 **Research Program Overview** - David Azria (ICM, Montpellier)

11h45 **Biology in a multiparameter environment for side-effect prediction** - Christopher Talbot (Leicester, UK)

12h15 **Dose-response relationship in patients treated by targeted radionuclide therapy** - Emmanuel Deshayes (ICM, Montpellier)

12h45 **Involvement of off-target effects in targeted radionuclide therapy** - Jean-Pierre Pouget (IRCM, Montpellier)

13h15 **Lunch**

14h30 **Keynote lecture by Hanno Glimm: Cross-Entity Cancer Genome Sequencing for Therapy Stratification: The DKTK-MASTER Program in Germany** - (DKFZ, Heidelberg, Germany)

15h15 **FHU EVOCAN : presentation and strategy**
- Guillaume Cartron (CHU, Montpellier)

15h30 **Coffee-break**

SESSION 3 : Tumor escape: exploration of mechanisms and search for targets

Chairs: Guillaume Cartron, Charles Theillet

16h00 **Research Program Overview**
- Charles Theillet (IRCM, Montpellier)

16h15 **Interplay between histone modifications and cell cycle checkpoints in the response to DNA replication stress** - Daniel Fisher (IGMM, Montpellier)

16h45 **MDM2 and metabolism: New therapeutic targets for liposarcomas** - Laetitia Linares (IRCM, Montpellier)

17h15 **Polycomb and cancer from fly to human**
- Giacomo Cavalli (IGH, Montpellier)

17h45 **Close**
