## Advancing Imaging and Applications Hyperion XT<sup>i</sup>™ Symposium

**Thursday 6th November | 13:30 - 18:00**

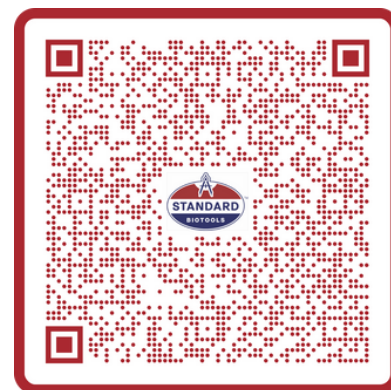

208 Avenue des Apothicaires, Parc Euromédecine  
34298 Montpellier Cedex 5

We're excited to invite you to a special event marking the arrival of the Hyperion XT<sup>i</sup>, the latest generation in high-resolution, spatially resolved Imaging Mass Cytometry™.

This half-day symposium offers a unique opportunity to discover the full capabilities of the XT<sup>i</sup>—featuring improved resolution, faster acquisition, and expanded multiplexing potential—while exploring its cutting-edge applications in fields such as immunology, oncology, and neuroscience. Local researchers who have worked with the previous-generation Hyperion system will share their insights and results, offering a comparative perspective and real-world context.

Whether you're curious about the platform or actively considering its use, this event is a chance to connect and find out more!

**REGISTER**
