From Tissue Architecture to Cell States: Exploring Heterogeneity with Spatial and Single-Cell Technologies

Tuesday, June 2 | 13:00–16:00

Seminar Room, Building F, IRCM
(Campus Val d'Aurelle, Montpellier)

Program:

- 13:00–13:15: Welcome and coffee
- 13:15–13:30: Introduction to Imaging Mass Cytometry™ and mass cytometry and new applications + Q&A – **Emilie Gregori (Standard BioTools)**
- 13:30–14:00: Study of Metabolic Heterogeneity in Solid Tumors + Q&A – **Matthieu Lacroix**
- 14:00–14:30: Histology-Guided Spatial Imaging to Study Macrophage Niches in Osteoarthritis + Q&A – **Gabriel Courties**
- 14:30–15:00: Mass Cytometry Strategies to Explore Metabolic Heterogeneity – **Lucille Stuani**
- 15:00–15:30: Single-Cell Quantitative Phosphoproteomics to Decipher Melanoma Response Heterogeneity and Plasticity Under MAPKi – **Florian Favier**
- 15:30–16:00: Drinks and networking
