

JOURNEE MEDECINS CHERCHEURS ICM – IRCM

Vendredi 14 juin 2024, 09h00 – 17h00

Salle de conférence IRCM

Spring 2024 Physicians – Researchers Meeting

Focus on Ovarian and Colon Cancers

9h00 – 12h30-	Colon cancer
9h00 – 10h00	Clinical strategies, current challenges and ongoing trials, Olivia Sgarbura, Thibault Mazard
10h – 10h30	The ICM Clinico-biological database: current status
10h30 – 10h45	Coffee Break
10h45 – 11h20	Synergistic effect of Oxaliplatin, ATR inhibitor and anti-PD1 combination, leads to colon cancer carcinogenesis eradication through deregulation of neutrophil homeostasis and increased PD1+ CD8+ T cells population in mice. Olivia Sgarbura, Céline Gongora
11h20 – 11h50	Spatial biology in several modalities, from atom force microscopy to spatial transcriptomics. Thibault Mazard, Didier Pourquier, Evelyne Crapez, Andrei Turtoi, Jacques Colinge
11h50 – 12h30	Impact of NETS formation on colorectal cancer. Thibault Mazard, Marc Ychou, Fabienne Portales, Alain Thierry
12h30:	LUNCH
13h30 – 18h00	Ovarian Carcinoma
13h30 – 14h30	Clinical strategies, current challenges and ongoing trials, Véronique d'Hondt, Pierre-Emmanuel Colombo
14h30 – 15h00	The ICM Clinico-biological database: current status
15h00 – 15h15	Coffee Break
15h15 – 16h00	Development of an innovative model of ovarian tumoroids Pierre-Emmanuel Colombo, Stanislas Quesadas, Véronique d'Hondt, Laetitia Linares
16h00 – 16h45	Resistance mechanisms associated with mesothelial cells in ovary cancer Pierre-Emmanuel Colombo, Stanislas Quesadas, Nathalie Bonnefoy, Maëva Chauvin
17h00	Closure
